

CommTECH Camp Highlight 2019

At Institut Teknologi Sepuluh Nopember
Surabaya, Indonesia

Presented by

Mr. Natthaphol Uthumphirat

School of Telecommunication Engineering
Suranaree University of Technology

Day 0 - Arrival

(September 7, 2019)

At Kuala-Lumpur Airport we met a friend who would join the CommTECH camp name “Fahmi”, a man with a cap, then we arrived at the Surabaya Airport, there were staffs waiting there to bring us to a Hotel name “Hotel 88” which was a very nice hotel, we stayed here for entire this camp.

Day 1 – Opening Ceremony and Campus Tour

(September 8, 2019)

Staffs gave us a very nice welcome show and opening ceremony in the morning, in the afternoon was campus tour which we could see amazing and great projects from ITS students such as the robotics (right picture) that has a fantastic function, controlled by remote, by the robotics they got 4 rewards.

Day 2

(September 9, 2019)

In the morning we took an Indonesian language course and after the class we were divided as a group of 6 people, then played a game about Indonesian vocabularies that we had just learned in the morning, in the evening everyone(including staff and participants) visited a house of the former prime minister of Surabaya City.

Day 3

(September 10, 2019)

In the morning, we were divided into a group of 6 people 2 sub courses (A and B) and introduction of each member in the group(right picture), in the afternoon we played local games, it looked similar to Thai local games, the game in the left picture was similar Chuck-Ka-Yer in Thailand, we all had fun.

Day 4 – Ratan

(September 11, 2019)

In this day everyone in the sub course A learned who to make a product from rattan, this was my first time to make a product from ratan and it went well.

Day 5 – Damar Kurung

(September 12, 2019)

In this day everyone in the sub course A learned who to make a lantern and drew anything we wanted on the lantern, called “Damar Kurung” in Indonesian Language, this was my first time, it was great, I liked my lantern.

Day 6

(September 13, 2019)

We went to many places in the downtown, the first picture was Heroes Monument which was very popular place in Surabaya city, and the second and fourth pictures were cigarette, unfortunately I could not go inside because of the smell was too strong for me I walked round outside there were many arts, the third picture was a former bank building, currently it is a museum.

Day 7

(September 14, 2019)

We visited the downtown but opposite side of Day 6, staff brought us to see a small enterprise of local people, we tried local food such as Tempe and dessert.

Day 8

(September 15, 2019)

We went to another city, name “Gresik”, which has a very interesting background and took a city tour, watched a show from local people the show was music of woodwind music instrument we all were surprised that an old man could played it so great, in the afternoon we went to a tomb of heroes of the city, there was an ancient architecture at the tomb.

Day 9

(September 16, 2019)

In this day all participants learned how to make a kite, after we finished making our kites, we also flew our kites under strong wind in that day.

Day 10 – Bromo and Rafting

(September 17, 2019)

In this day, everyone departed from Surabaya to Bromo mountain at 2.00 AM, it took long time to arrive the mountain, on the day we went was the day that local people made a ritual, we saw many things were thrown into the mountain which used to be a volcano, in the afternoon we went to another city for rafting, it was such a good experience there because the river we rafted was so nice, I enjoyed this day a lot.

Day 11

(September 18, 2019)

The final day to finish our project, my group was doing it seriously, everyone hoped to have a good result in the next day.

Day 12

(September 19, 2019)

Today was the last day at ITS, but not the last day in Indonesia, a presentation that we are looking for, everyone looked so happy to present our best project that we had made so far, and moreover I got many new friends here, 12 days in Indonesia is my unforgettable memory, I hope to go there again.
