

SURANAREE UNIVERSITY OF TECHNOLOGY (SUT)

RESEARCH EXCHANGE PROGRAM (REP) 2021

Hosted by the Center for International Affairs

Research University

Suranaree University of Technology was established as a public autonomous university, outside the civil service system, under the supervision of the Royal Thai Government, promoting administrative proficiency and efficiency in its operations; a scholarly community consisting of the learned and the learners, as well as all kinds of knowledge in Arts, Sciences and Technology, beneficial to both individuals and society. This university firmly pledges to maintain excellence in all of its commitments; to advance the quality of life; to seek applications in the collection and creation of knowledge, moral ethos and wisdom, for the eternal growth of humankind.

Facts & Figures:

- Number of undergraduate student 13,521
- Number of graduate student 1,409
- Number of Academic Staff 507

QUALIFICATION:

- Be a student of Master Degree Program/ Doctoral Degree Program
- Non-Thai national
- Accepted to conduct a research work with SUT's advisor

Program details:

- Non-Credits
- Four months program to begin;
- March - June 2021
- April - July 2021
- May - August 2021
- June - September 2021

Benefits:

- A good opportunity for graduate student worldwide to conduct a research work under the supervision of a SUT advisor in expertise fields
- On campus dormitory guaranteed
- Dormitory fee waive with limited offers

Center of Excellence

The university has set up SUT- CoEs to develop and strengthen faculty and researcher capacity and to increase research productivity in line with the direction of university research. The center is dedicated to supporting faculty and researchers at Suranaree University of Technology, who possess high research potential, outstanding research achievement, extensive experience and expertise in conducting national and international research, high leadership ability, and are ready to lead and establish a specialized center allowing the faculty and researchers to focus on one-of-a-kind, in-depth research. These result in producing research that aligns with the research indicators of the university. Five specialized centers have been established.

COE in 

- Technology and Innovation for Korat Chicken Business Development
- Innovation for Sustainable Infrastructure Development
- Microbial Technology for Agricultural Industry
- High Energy Physics and Astrophysics
- Electromagnetic Wave Application
- Agricultural Product Innovation
- Advanced Functional Materials
- Biomechanics Medicine
- Entrepreneurship
- Biomass
